404-257-0964

#### PATIENT SECURITY COMMUNICATION-INFORMED CONSENT

Our office does confirm appointments by text and voicemail. These communication modalities and email are used for administrative purposes only. Please be aware that they are not always secure mediums of communication. Remember that emails are in the logs of the internet service provider. We use text and voicemail communication for short messages such as appointment confirmation.

Therapeutic issues are most confidential when discussed during therapy sessions, or in emergencies, on the phone, 404-257-0964. Therapy sessions are conducted on HIPPA secure video conferencing. If there is a technology failure and you would like to use FaceTime or the phone as a back up, please be aware that they are not HIPPA secure. Please try to fax insurance and confidential information to: 678-974-2992. This is a secure fax. This office makes every effort to insure your privacy. Dr. Klaitz is not on social media.
